Administration and Marketing Spend for State regions

The screenshot displays the IBM Cognos Analytics web application. The main workspace shows a relationship diagram titled "Explore data relationships" for the file "50_Startups(2).csv". Two nodes are connected by a curved purple line: "State" (a dark blue circle) and "Administration" (a purple circle). A search bar above the nodes contains the text "State". To the right of the diagram is a "Select a visualization" panel with a search bar containing "State". Below the search bar, a "State regions" section shows a world map. Further down, a "State" section displays a list of states: "California" and "Florida". At the bottom of the interface, a Windows taskbar is visible with various application icons and the system clock showing 8:25 PM on 9/13/2022.
